COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Radio or Television Interference, Noise, Health and Safety, Biological Resources, Visual / Aesthetic Resources, Other, Proximity to Residences

OTHER: Property values decreasing

Property Uses:

Agriculture, Residential

Comment:

Re: San Luis Valley-Calumet-Comanche Transmission Project: I understand that we need more high energy transmission lines. All I ask is that you use the least obtrusive path for placement of those lines. The one that makes the most sense and has the least impact on our residences at East Hatchet Ranch is the 230 kV line corridor just east of the railroad tracks.

Please, place the lines where they do the least harm.

Sincerely,

Mary Conrad

I-223-001: Route Refinement > Calumet-Comanche (In Review)

Your email/letter/comment form has been received and your comment noted. Route refinement for the proposed project and mitigation measures will be addressed in the Environmental Impact Statement. The Environmental Impact Statement is anticipated to be completed in late 2010 and will be available at <http://www.usda.gov/rus/water/ees/ea.htm>.
